Problem Set No. 2

Dept. of Computer Science

Date: Oct 21, 1999

Due: TBA in class

Do the following problems from the text (Ch. 3):

Number **3** (**NB.** part(i) is a bit tricky. Part(ii) is easy and everybody should be able to get it, on the assumption that part(i) is true), and

Numbers **18, 22, 23, 24, 25, 26, 29, 30.**
